
Want to build up your skills?

Talk to us about work experience and training opportunities in construction.

NORTHAMPTON
PARTNERSHIP HOMES

Talk to us about work experience opportunities

ENGIE is working with Northampton Partnership Homes (NPH) to offer an exciting opportunity for people living in homes managed by NPH (Council Homes) to experience life on a busy construction project.

Whether it's out on site learning from an expert tradesman or in a bustling office picking up the skills required to run a multi-million pound contract, you will leave with a unique insight into the construction industry.

And that's just the beginning, placements could be the start of a potential career or gateway to further education and upskilling.

Placements are available in a variety of trades and occupations, depending on the work being carried out at the time of application.

For more information on the exciting placements available, please contact ENGIE on **07971 609 426**. Alternatively, please email your CV to: dale.powell@engie.com
